

Colored Jars

The color of safety

+ Allergy Safety Made Simple

Colored jars and lids make it easy for you and your employees to quickly select the right jar every time to prevent cross-contamination of allergens. Send a clear message to your customers that you care about their well-being.

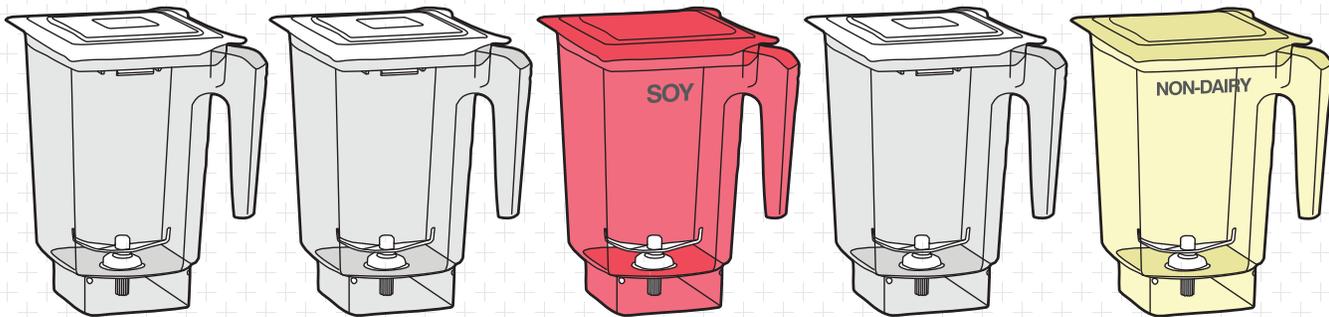

Safer for Your Customers, Less Liability for You

Keep everyone safe by avoiding cross-contamination of allergens. For example, the red jar and lid could be used for soy products and the yellow jar and lid for non-dairy. These jars and lids are NSF certified.

Faster and Easier to Use

Colored jars and lids make it easier for your employees to know which jar should be used for which blend, not only preventing dangerous mistakes, but saving valuable time. The simple coloring system makes your operation run smoother.

Use the New Colors for Branding or Design

Make any of our clear or colored jars your own with custom logos or markings. Using Blendtec's colored jars and lids adds a splash of color to draw attention to your blend or brand.
